

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT FOR WIND POWER PROJECTS

The Volta River Authority (VRA) intends to construct and operate two wind energy power facilities as follows:

- A. 76MW Wind Power Project 1 (Anloga Extension) located at Anloga, Anyanui and Srogbe communities in the Keta Municipality in the Volta Region.
- B. 76.5MW Wind Power Project 2 (Wokumagbe and Goi) located in Wokumagbe and Goi communities in the Ada West District in the Greater Accra Region.

An Environmental and Social Impact Assessment Report (ESIA) has been prepared for the proposed wind energy power facilities. Hard copies of the ESIA Reports are available at the EPA Head office in Accra, the Keta Municipality in the Volta Region, the Ada West District in the Greater Accra Region and electronic copies have been posted on the VRA's website at www.vra.com.

Notice of the proposed wind energy power facilities is hereby served for public information, as required under international best practice for the conduct of Environmental Assessment. Any person(s) who have an interest, concern, or special knowledge relating to potential environmental effects of the proposed undertaking may contact or submit such concerns, etc., to:
