

2 x 350MW Supercritical Coal fired Power Project Environmental & Social Impact Assessment

The Shenzhen Energy Group Co., Ltd. of China (SEC) in collaboration with the Volta River Authority (VRA) intends to develop a 2×350MW supercritical coal-fired generating units (including affiliated coal handling terminal), at Ekumfi within the coastal areas of the Ekumfi District in the Central Region of Ghana. This project is known as the "2 x 350MW Supercritical Coal Fired Power Plant" and represents the first phase of the development, which is to be further expanded either to a 4×350MW (or 2×600MW) supercritical coal-fired generating units.

Separate Environmental & Social Impact Assessment (ESIA) Reports have been prepared for the Coal Thermal Power Project and the Associated Coal Handling Terminal Project. Copies of the ESIA reports are available at the EPA Head office in Accra, EPA Central Regional Office, Cape Coast, Ekumfi District Assembly and on the website www.vra.com.

Notice of the proposed " $2 \times 350MW$ Supercritical Coal Fired Power Plant"" is hereby served for public information, as required under the procedures for the conduct of EIA in accordance with Regulation 16 of LI. 1652.

Any person(s) who have an interest, concern, or special knowledge relating to potential environmental effects of the proposed undertaking may contact or submit such concerns, etc., to:
