

SCOPING NOTICE

The Ministry of Energy and the Volta River Authority (VRA) plans to relocate the “**AMERI Power Plant**” from its current location at Aboadze in the Western Region to a site adjacent the GRIDCo K2 BSP 161kV/330kV substation at Anwomaso in the Oforikrom Municipality of the Ashanti Region of Ghana. The project which is known as the “**250MW Kumasi Thermal 1 Power Project**” is intended to reduce transmission losses and improve power supply in the Ashanti Region and the Northern Sector of the country.

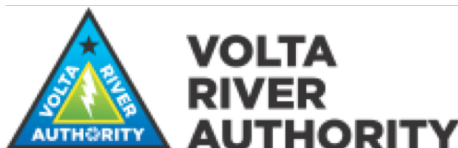

Notice of the proposed project is hereby served for public information, as required under the procedures for the conduct of EIA in accordance with Regulation 15(1) of LI. 1652. Hard copies of the Scoping Reports are available at the EPA Head office in Accra and Regional Office in Kumasi. The electronic copy is available on the VRA's website at www.vra.com.

Any person(s) who have an interest, concern, or special knowledge relating to potential environmental effects of the proposed undertaking may contact or submit such concerns, etc., to:

The Chief Executive
Volta River Authority
